Portfolio

Education

Adamas University

Master of Computer Applications (MCA)

Barasat, West Bengal 2024–2026

SGPA 8.33 (up to 2nd semester)

JIS College of Engineering

Bachelor of Computer Applications (BCA)

Kalyani, West Bengal 2021–2024

CGPA 8.21

Work Experience

Jan 2022 – Jun 2025: **Frontend Developer** — Indomitech Group (Remote, Flexible Timing)

- Developed management software solutions for educational, retail, and startup sectors.
- Built 15+ mobile-friendly websites using HTML, CSS, JavaScript, Bootstrap, and jQuery, helping clients improve site speed, design quality, and user feedback — leading to repeat work and long-term client relationships.
- Collaborated with backend teams to integrate PHP, MySQL, and REST APIs, enhancing system performance by 30%.

Projects

Shaligram Healing: Video Platform : Sep 2024 - Dec 2024 ([Live Link](#))

- Contributed to a high-performing web platform generating over Rs. 5L in monthly revenue by developing scalable features, improving performance, and maintaining strong client relationships.
- Built and maintained a secure, role-based admin panel with an interactive analytics dashboard (PHP, MySQL, Chart.js), streamlining content management and improving efficiency by 60%.
- Implemented an HLS-based video streaming system using AWS services (S3, MediaConvert, CloudFront), significantly improving performance, scalability, and cross-device compatibility while reducing initial load time by 35%.
- Skills Used:** PHP, JavaScript, AWS S3, AWS Lambda, AWS MediaConvert, RDS, EC2, CloudFront CDN, WAF, ELB, MySQL, SQL, Bootstrap, Chart.js, Project Planning, Development Workflow

Expomart - E-commerce Platform : Jun 2024 - Sep 2024 ([Live Link](#))

- Engineered frontend and core logic for a scalable e-commerce platform with 500+ products, integrating search filters, category management, lazy loading, and infinite scroll to enhance UX and improve page load speed by 40%.
- Developed a centralized admin dashboard integrating the Ecom Express API, enabling real-time inventory tracking.
- Skills Used:** PHP, SQL, MySQL, JavaScript (ES6), Bootstrap, REST APIs, Payment Gateway, Ecom Express

EvPoint: EV Charging Point Locator : Mar 2022 - May 2022 (GitHub: [Source Code](#)) ([Live Link](#))

- Built an EV charging locator with Leaflet.js and JavaScript for interactive maps with search and navigation.
- Constructed and deployed 10+ REST APIs with Node.js and Express.
- Deployed the application on Firebase, ensuring reliable performance and scalability.
- Skills Used:** HTML, CSS, Javascript, Node.js, Express, MongoDB, Leaflet.js, Firebase, Postman.

Skills

- Technical Skills:** JavaScript, Java (OOP), C, Python, HTML, CSS, jQuery, AJAX, REST API, Bootstrap, React.js, Node.js, Express.js, SQL (MySQL), NoSQL (MongoDB)
- Cloud & DevOps:** AWS Services, Website Deployment, Git, GitHub, Postman, Linux OS
- Design & Tools:** Prompt Engineering, Figma, Photoshop, Filmora
- Soft Skills:** Technical Communication, Teamwork, Problem-Solving, Leadership, Adaptability, Quick Learning

Certifications & Awards

- JavaScript Certifications** from Udemy by Jonas Schmedtmann (Jan 09, 2023)
- JavaScript Algo & DSA** from FreeCodeCamp (April 18, 2022)
- Technical Support Fundamentals** by Google (June 28, 2021)
- Jis Tech 2k22: Annual Tech Fest at Our College. We got 1st position in our department.
- Advanced React** by META (May 19, 2024)
